

OREGON SHORT LINE GIANT STEAM SHOVEL AT WORK IN NORTH SALT LAKE.

WHOOPIING COUGH.

State Board of Health Sends Out a Circular on Subject.

The state board of health is sending out today, the following circular relating to whooping cough to all health officers and county school superintendents in the state:

"In view of the extensive prevalence of whooping cough throughout the state it is advised by the state board of health that the law relating to the quarantine of the disease be strictly enforced.

"The person affected should be confined to the quarantined premises, and, if possible, isolated from other children during the entire period of the whooping and for a week at least afterward.

"A child attending school, if affected with a suspicious cough, should be sent home by the teacher to await developments, and should not be allowed to return to school until the presence or absence of whooping cough is determined.

"Will you kindly instruct the teachers within your jurisdiction to this effect and advise people generally of the serious character of the disease which commonly is so lightly regarded?

"The infected premises should be disinfected at the end of the quarantine period in the same manner as in other contagious diseases. It is not necessary to quarantine other members of the family than those affected."

ARRIVES AT QUEENSTOWN.

A telegram has been received at the President's office from the White Star line steamship company at Boston announcing the arrival at Queenstown of the steamer Celtic at 10 o'clock yesterday with the following passengers on

board, all well: A. R. Poulton, Salt Lake; Frank C. Taylor, Milo Taylor, Sugarhouse; C. H. Norberg, Forest Dale; Nephi Anderson, Brigham City; W. G. Paul, Geo. C. Steiner, Rexburg; Henry Noorda, Ogden; William A. Hart, Raymond, Ida., and other Utah and Idaho passengers.

1,000 dozen men's good special made canvas gloves, 10c pair.

POSTMASTER APPOINTED.

(Special to the "News.")
Washington, D. C., April 8.—Earl J. Ruso has been appointed postmaster at White, Kootenai county, vice William A. White, resigned.

THE SHORT LINE IMPROVEMENTS.

Great Activity is Beginning To Bestir Itself for General Benefits.

WHERE NEW SHOPS WILL BE.

Repair Work is Being Temporarily Done in Ogden But Salt Lake Will Come to the Front Later.

The accompanying half tones from photographs taken by the "News" special man indicate that preliminary work has commenced in North Salt Lake by the Oregon Short Line as provided for in the franchise recently granted by the city council. Just when the foundations will be excavated for the new big round house and other buildings is not at this time forthcoming. As yet the work has been confined to yard improvements with the result that tracks have been torn up while a "Y" has been put in on South Temple and Fourth West which will do away with the hauling of passenger trains for switching purposes right out to North Salt Lake and back again to the depot.

The talk regarding the erection of huge shops here to rest in the neighborhood of \$250,000 has been apparently suspended since the re-organization of the Harriman lines. Under the latest merger to re-organize the Southern Pacific shops at Ogden which have just been completed and put into commission.

It is understood that the present work being done is solely in the nature of yard improvements generally and just enough of that work will be completed to enable the Oregon Short Line to hold the valuable franchise recently granted.

SUGAR VS. MILL CREEK.

County Schools Try Conclusions in General School Work.

Yesterday the Sugar school visited the Mill Creek district and indulged in a school contest. The morning hours were devoted to tests in arithmetic, history and spelling. Sugar winning in the former and Mill Creek in the two latter. In general school work Sugar averaged 65 per cent and Mill Creek 70 per cent. In the afternoon athletic sports were indulged in on the school campus. Sugar taking practically everything in sight, the exceptions being in baseball and the one-mile dash. Preston Richards, principal of the Mill Creek school, distinguished himself as a pole vaulter, the gentleman taking a speedy header in an attempt to break all previous records. James E. Moss, principal of the Sugar school, was also an enthusiastic participant in the day's sports.

POLICE AT REVIVAL.

Decided Lack of Harmony Characterizes the Nazarene Mission Services.

There was a lack of harmony last night, at the Nazarene mission revival services that resulted in the calling in of the police. In the course of her discourse Thursday evening, Mrs. Kent White, the revivalist, stated that some members of the Nazarene church at Los Angeles, where she had been previously laboring were living impure lives, and that they were not called to any account by the church authorities. This stirred up several of the Salt Lake congregation who objected to any reflections on the sister church, they demanded that Mrs. White be not allowed to preach further. The majority of the congregation, however, against them and Mrs. White took the rostrum again last night. Nothing daunted, the objectors called in the police to try and have the preacher put out; but as the police could see no occasion for it, Mrs. White was not interfered with, and the meeting went on. It is understood that an attempt will be made to shut her off tonight.

SPENCER REUNION.

Descendants of Orson Spencer to the number of 25 met Thursday night at the Canyon road residence of Mrs. Mabel Held and voted to hold a reunion of the Spencer family next fall. Orson Spencer was the first chancellor of the board of regents of the University of Deseret, the predecessor of the Utah state university.

SALT LAKE GROWING.

City Directory Official Estimates the Population to be About 90,000.

Manager W. P. Cooper of the Polk city directory estimates the population of Salt Lake City and suburbs at a little over 90,000, with the population within the corporate limits at about 78,000; and the government figures for 1900 were incorrect. Mr. Cooper says the government census takers are inexperienced and they don't know how to do their work. Some of the large business blocks were missed entirely by the 1900 census enumerators, and whole families who had gone off for the summer, were missed also. Census enumerators invariably miss from 20 to 25 per cent of the population.

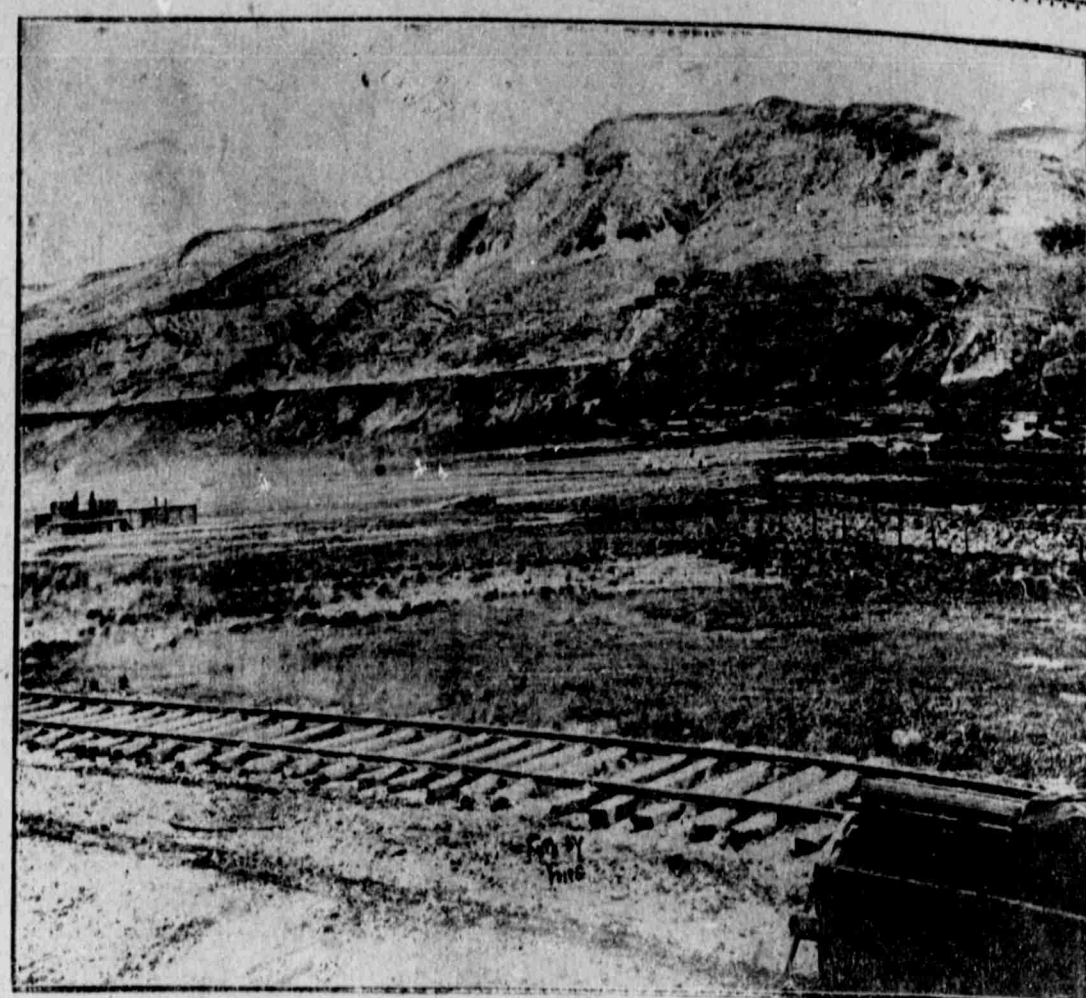

CAUGHT WITH \$800.

Robbers from Ross Fork Nabbed—Election—Bridge Accepted.

Special Correspondence.
Pocatello, April 7.—Officer Raynor, with the assistance of Officer Poppolton, made an important capture about 4 o'clock this morning when they arrested two men giving the names of Schroeder and Williams, and as being from Portland.

The facts in the case are that these fellows had robbed the C. E. Thum & Co., post traders at Ross Fork, of about \$1,000 about 9 o'clock last night.

It seems Mr. W. A. Pyke, one of the firm, had just closed the store and was counting his cash, when they entered with pointed guns, secured his capture. After taking all the cash in sight they bound him, and retired, but he freed himself shortly after, and notified the neighboring places by phone, giving a good description of the men with the above result, that the men were recognized and arrested here.

FOREGROUND ON WHICH OREGON SHORT LINE SHOPS ARE TO BE BUILT.

They had on their persons \$800 and two revolvers and a watch, the latter the property of Mr. Pyke, and it was identified by Mr. Thum, who was in Pocatello at the time of the robbery, and who had just offered \$200 reward for the apprehension of the culprits.

It seems further that they had made their way here on a hand car part of the way, and had walked the rest. They entered the Flat Iron restaurant run by Perkins. Officer Raynor had just ordered a meal, and when they entered he recognized them by description and on the pretext of getting a drink, he called Chas. Poppolton, and effected the capture by having the drop on them.

Special Correspondence.

Pocatello, Ida., April 6.—The woman's vote played an important part in yesterday's city election. The Republican ladies' club were the first in the field, and opened headquarters on the first floor, next door to Petersen's candy

store on W. Center St., serving free lunch and pleasant greetings to all callers. The Democratic ladies followed suit and engaged a suite of rooms at the Metropolitan, same block, and they likewise dispensed lunch gratis. The election was fair and above board, devoid of any personal or sensational matter, and the voting day unusually pleasant, dry under foot and a warm sun in evidence, which brought out a heavy vote, 2,140 all told, though it was expected that only about 1,900 would be cast. Mayor Swinehart is supported by a Republican council that ought to give a good account of itself.

NEW BRIDGE ACCEPTED.

The wagon bridge across the Snake river near American Falls, was completed last month, and on April 1 the bridge commission, composed of Williams of Hailey, Oliver of American Falls, Hyde of Pocatello, and Assistant State Engineer Jas. T. Stephenson, inspected and accepted the bridge. The

cost of the bridge is \$10,000, and \$115 for the approaches. The county of Oneida will contribute \$1,000, the rest will be paid by the county of Bannock. Elder J. Brigham Hawley, son of Jos. B. Hawley, returned today from a two-years' mission to Wales in the interest of the Latter-day Saints Church. He has enjoyed his labor and filled a successful mission.

Mrs. Jane Durrah and Clark M. Williams were married last night by Rev. Jas. D. Killian. The bride has been city treasurer for two terms here.

Men's all wool cloth suits, sold for \$10.00 and \$12.00, on sale for \$7.50.

KILL THE SERPENT

The worst disease the world has ever known, and the greatest scourge to the human race, is Contagious Blood Poison. One drop of the virus of this loathsome disease will pollute and vitiate the purest and healthiest blood, and within a short time after the first little sore appears the system is filled with the awful poison; the skin breaks out in a red rash, the glands of the groins begin to swell, the throat and mouth become ulcerated, the hair and eyebrows drop out, and often the entire surface of the body is covered with copper-colored spots, pustular eruptions and sickening-looking sores and abscesses. Many a man has been cut down in the prime of life, or his health so impaired by this vile disease that usefulness is destroyed, and he becomes a burden to himself and an object of pity to the rest of mankind. Contagious Blood Poison is the most annoying, humiliating and degrading of all diseases. It is as treacherous and elusive as the serpent. Under the mercury and potash treatment all external evidences of it may disappear, and the victim misled, be buoyed up by false hopes of a cure, while the disease may even then have fastened its fangs in some vital spot within the system, where it is doing its destructive work unseen. Mercury has arrayed against it thousands upon thousands of physical wrecks and chronic invalids who have been dosed for years and their systems saturated with these powerful drugs, only to be harassed by constantly returning symptoms and confronted with unmistakable traces of blood poison years after. As long as your blood is tainted with this awful virus you are a source of infection and danger to all who come in contact with you, and your children will carry in their veins the same dreadful contagion. As long as there is life in the serpent there is danger in its fangs, and so long as any signs of Contagious Blood Poison remain there is danger of infection. Safety lies in crushing out the life of this loathsome disease and killing the serpent, and no remedy known does this so thoroughly and permanently as S. S. S. It is an antidote for this peculiar virus that spreads through the system, defiles the blood and contaminates all healthy tissues and threatens every organ and part of the body.

I am compelled by a sense of gratitude to tell you of the great good your remedy has done me. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus, as characterized by the usual symptoms. I lost in weight, was run down, had sore throat, eruptions, spots, and other evidences of the disease. I was truly in bad shape when I began S. S. S., but the persistent use of it brought me out of my trouble, safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S. S., and to recommend it to all Blood Poison sufferers, sincerely believing that if it is taken according to directions and given a fair trial, it will thoroughly eliminate every particle of virus, no matter how severe the case may be.

Greensburg, Pa., June 10, 1903. JAMES CURRAN.

SSS

an excellent tonic and appetizer of the system. Kill the serpent, crush out its life, or you are apt to feel the bad effects of the disease all your life. If you will write us fully about your case, our physicians will gladly advise without charge, and mail you a copy of our home-treatment book telling all about Contagious Blood Poison, its different stages and symptoms, and a lot of interesting information about this formidable and much-dreaded disease.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
